4C Online Training

4C Carbon Footprint Add-On

Day I:
Introduction to 4C Carbon Footprint Add-On and its **methodology**; how to conduct **GHG emissions calculations on farm-level**

Day II:
How to **perform GHG emission calculations for postharvest processing, transport, and distribution**; how to calculate and forward emissions for Intermediary and Final Buyers

Day III:
How to prepare an **Improvement Plan to reduce GHG emissions**; guidelines to achieve **climate neutrality**; certification steps to adopt the 4C Carbon Footprint Add-On; claims and communication to buyers and consumers

26-28 September 2022
1:00 – 5pm CEST

4C cordially invites you to join the **second session** of our **4C Online Training on the Carbon Footprint Add-On** in 2022.

When? 26-28 September 2022 from 13:00-17:00 CEST.

The 4C Carbon Footprint Add-On was launched in February 2022 to offer 4C system users a solution to **assess and address the impact of coffee production on the climate**. For the development of this voluntary addition to the core 4C certification **scientifically proven methodologies** were applied and 4C engaged stakeholders from around the globe in a participatory process.

This **three-day online training** will guide you through the **certification process** for the Add-On, ensuring better understanding and implementation of the audit requirements and procedures. **The training will be in English.**

Note: This training is compulsory for Certification Bodies, that wish to conduct audits for the Add-On but participation is recommended to all parties interested in applying the Add-On.

We are looking forward to having you with us!
